Education

Birla Institute of Technology, Mesra

Bachelor of Science in Computer Science— CGPA- 8.94

2023 – 2027

Patna, Bihar

Holy Mary International School

High School,10+2—94.6 percrntage

2020– 2022

Darbhangha, Bihar

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Theory Of Computation
- Oops
- Database Management
- NLP
- Computer Networks

Experience

Cyber Security Job Simulation – Deloitte (Forage)

June 2025

- Completed a virtual job simulation focused on real-world cyber security tasks including threat identification and risk assessment.
- Gained hands-on experience in analyzing security incidents and applying basic cyber defense strategies.

Projects

E-KRIDA: Gamified Learning Platform | *HTML, CSS, JavaScript, PHP, MySQL*

- Smart India Hackathon: Designed a web-based gamified platform to enhance student engagement through interactive quizzes, puzzles, and daily challenges.
- Interactive Learning System:Developed features like quiz modules, scoring system, and leaderboard to improve user engagement and knowledge retention.
- AI-Based Recommendation: Implemented a rule-based recommendation system to personalize learning activities based on user performance.

food ordering system (Java OOPs) | *Java, Spring Boot, Hibernate, MySQL, REST APIs, Git*

- System Design: Developed an Online Food Ordering System using Java, implementing core OOP principles such as encapsulation, inheritance, and polymorphism for modular and scalable design.
- Feature Implementation:Built functionalities including menu browsing, cart management, order placement, and multiple payment options using interfaces and abstract classes.
- Code Optimization Structure: Designed reusable and maintainable code with proper class hierarchy, exception handling, and separation of concerns following object-oriented design practices.

Technical Skills

Languages: Python, Java, C,C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code,Git hub, Anaconda,

Achievements

- Qualified GATE CS and DS 2026, demonstrating strong proficiency in Computer Science fundamentals, Data Structures, and Algorithms.
- Runner-up in TECHNIKA'24 for developing a Utility Bot, demonstrating strong problem-solving and practical application development skills.
- Successfully qualified at the college level for the Smart India Hackathon, demonstrating teamwork, and innovative thinking while competing in a highly competitive national-level hackathon focused on real-world challenges.
- Secured Runner-up positions in both Badminton and Cricket at college inter-branch tournaments, demonstrating teamwork, consistency, and competitive excellence.
